The Denison College Difference

Both campuses provide unrivalled curriculum choice and post-school pathways for individual students.

There is a broad range of extra-curricular, academic, sporting and cultural activities to broaden the skills of each student.

Comprehensive wellbeing programs support teenagers and their families through secondary years at Denison College.

We are proud of our professional, experienced, caring and committed staff.

Both campuses of Denison College provide students with the skills and capabilities to give them more options and choices in their future work.

What Do I Do Now?

- Complete an **Expression of Interest** form through your primary school for enrolment at your local secondary campus. Return to your primary school by **20 March 2020**.
- If you wish to be considered for placement at the other Denison College campus, complete section C page 6 (other government school). Return to your primary school by 20 March 2020.
- Your child will attend the Denison College Transition program at your local campus. See program dates over page.

NSW Department of Education

Moving into Year 7 in a NSW Government school in 2021

It is time to start the transition of your child from Year 6 to Year 7.

NSW Government schools provide high quality education services that support students to achieve their potential, develop strong values, and secure their future.

Our schools offer extensive curriculum opportunities and rich learning environments which ensure learning is engaging, relevant and challenging.

Our fully trained and qualified teachers help students develop independence, responsibility, and a love of learning.

Our staff promote wellbeing and support students to be successful learners and informed citizens in our society.

Further information is available at https://education.nsw.gov.au/public-schools/going-to-a-public-school/enrolment/high-school-enrolment

Your local school

Most NSW Government schools have local enrolment areas. Your child's permanent residential address determines which school is your local school. The School Finder tool at https://education.nsw.gov.au/school-finder can help you locate your child's local school.

Many parents and carers in NSW choose their local school to provide an education of excellence for their child.

Local schools cater for students of all ability levels, including programs to challenge the gifted and talented and programs for students with additional learning and support needs. There is also a wide range of extra-curricular activities.

Most single-sex (boys or girls only) schools accept students in a designated local enrolment area.

Some single-sex schools, however, are academically selective schools or specialist schools and have special enrolment procedures.

Multi-campus colleges include a number of schools or campuses, with each school or campus specialising in different areas. For example, there are junior campuses (Years 7-9 or 7-10), senior campuses (Years 10-12 or 11-12), academically selective campuses, co-educational campuses and single-sex campuses.

Central schools offer many rural and isolated communities the opportunity to educate their children from Kindergarten through to Year 12 in one school setting. Many central schools use technology to link teachers and students in different schools so that a range of subjects is offered. Central schools also offer a broad range of extra-curricular activities.
